## Policies Against Depopulation in Mountain Areas

How are best practises  
established in different  
regions?

Åge Sund

Buskerud County Authority

Supported by:

**European Union**

European Regional Development Fund

# Best Practise (BP) - In What Areas?

- Several cases from each region
- BP established in different sectors within each region
- Areas frequently mentioned:
  - Tourism, cultural heritage
  - Agriculture
  - Different industries
  - Combinations

# Context, background

- Enhancing competence in population
- Better access and availability of studies/training/courses

# Institutional setting

- BP as a result of collaboration
  - Different levels of government
  - Public and private sector
  - Various educational institutions
- Funding: Varying models - often joint funding
- Variation regarding links to e.g. national programs

# Some key features of BPs

- Trend: More “specialized” than “general” training
- BPs aim to meet the needs for expertise and competence with local business sector
  - Applies also to public sector/instit.
- Training/courses offered are often “customized”
